

Literacy Bag- Resource Summary and Pricelist

Each literacy bag is individualised to suit the children's book title included. The learning tools and resources are designed around sensory engagement to enhance and build on early literacy opportunities for children.

Resources are flexible with an emphasis on sustainable practice. We use recycled, renewed, redesigned, natural and handmade resources so there may be variation in the resource products and fabrics used.

Each bag also contains Educator and Parent Literacy notes specific to each literacy bag. The literacy notes are designed to give ideas, prompts and concept explanations and to promote provocation.

The inclusion of a theory booklet provides sound early literacy theory, tips for reading for parents, our intention when designing the bags and reflections on framework.

We have reflected with other Educators to build each literacy bag so it is a useful tool for all involved in the care and education of children, from those who maybe new to storytelling through to experienced Educators, and hopefully parents too.

The Cloud is a multi-dimensional book. It explores the feelings that abound when you feel uncomfortable and are searching for your identity within a group. This story explores a child who has a very big black cloud above her head and another child who shows a willingness to help her fit in and find herself. She becomes her friend reducing that cloud. The book also uses weather as a clever tool to gauge how the girl is feeling, it looks at children cooperating together and inclusion as well as leaves you guessing at the end.... when a new child is arriving....
