## Educational Resource Centre

### Catalogue continued... Steiner inspired dolls

Our handmade Steiner dolls are inspired by the Victorian climate and natural bushland.

Large dolls are 12cm high making them a good size for imaginative play for children. Babies are 6cm. We suggest 3 years and up, but as educators we understand that each child is an individual... you will know your children.

There are small decorative pieces such as wooden discs and buttons, so please keep this in mind.

#### **Handmade Winter family**
